- Environmental crisis, climate justice and feminist political ecology.
- Postpandemic economic crisis, employment and restructuring.
- Austerity, inequality and pandemics in public health systems.
- Gender, housing crisis, mobilities and right to the city.

- Education inequalities in crisis and recovery.
- Migration and refugee justice.
- Reading landscapes of austerity and crisis.
- Implications of social and physical distance for livelihoods and care.
- Social movements and feminist resistances.
- Gendered aspects of access and use of communication technologies and social media platforms.

The Conference is designed to provide a forum for the exchange of ideas and networking between geographers and other researchers interested in Gender and Geography.
